EDUCATION

Dartmouth College – GPA 3.9

Hanover, New Hampshire

Major: Bachelor of Arts, Computer Science

September 2020 – June 2024

Minor: Hispanic Studies

Honors/Awards: Magna Cum Laude, College Honor List (2020-2024), QuestBridge National Scholar

Relevant Coursework: Multivariable Calculus, Object Oriented Programming, Software Design and Implementation, Database Systems, Machine Learning and Statistical Analysis, Computer Graphics, Computational Photography, Full Stack Web Development

EXPERIENCE

Lennar

Miami, Florida

Full Stack Software Developer

July 2024 – Present

- Built a scalable Search and Compare feature, implementing modernized React components and backend services to manage tens of thousands of home plans and improve discovery efficiency for hundreds of users.
- Developed full-stack multi-family functionality, transforming the platform from single-family-only to supporting multi-family plan creation and management, enabling the business to scale to thousands of additional plans.
- Designed and implemented a serverless Azure Function App to automate PDF plan ingestion and attribute extraction, reducing manual data entry by 50–60% and establishing scalable onboarding infrastructure.

Amazon

Boston, Massachusetts

Software Development Engineer Intern

June 2023 – September 2023

- Designed and implemented an automated Alexa integration test suite using the Internal Alexa Test SDK to emulate a wide range of Alexa requests, covering diverse Voice User Interface (VUI) utterances and scenarios.
- Created test cases for Alexa integration, validating VUI interactions and improving the reliability of Alexa-enabled devices.
- Integrated the test suite into the pipeline with Hydra Test, automating the CI/CD process for stable software releases.

Mavis Tires & Brakes

Millwood, New York

UI/UX Design Intern

January 2023 – March 2023

- Redesigned 10+ internal admin tools, employing principles of human-centered design to enhance usability and accessibility.
- Conducted Figma training sessions for 10+ team members, improving their design collaboration and proficiency.
- Designed multiple website pages adhering to new brand guidelines, with several pages successfully launched into production.

Dartmouth College, Department of Computer Science

Hanover, New Hampshire

Teaching Assistant, COSC 21: Foundations of Digital Design

June 2021 – August 2021

- Guided over 25 students through Adobe Photoshop during class and weekly office hours.
- Graded student projects based on a set of technical and aesthetic criteria.

PROJECTS

Guided Maps | [GitHub](#)

- Used Claude Code to build and ship an iOS app, using React Native and TypeScript with a Supabase backend for the database, authentication, real-time sync, and cloud storage.
- Designed an offline-first data sync system supporting real-time collaborative editing for multiple users, with database-level security rules protecting each user's data.
- Built a custom native iOS search feature in Swift using Apple's MapKit, added backup search providers for reliability, and prepared the app for Apple App Store submission, including privacy and security requirements.

OTHER SKILLS & INTERESTS

Certifications: Microsoft Certified: Azure Fundamentals

Technical: Claude Code, AI-Assisted Development, TypeScript, JavaScript, React, React Native, Redux, RESTful APIs, Nest, Node, Jest, Azure, Git, Jira, Agile, CSS, HTML, Python, Java, Kotlin, C, Photoshop, Illustrator, Lightroom, Figma, Autodesk Maya, SQL, MongoDB, Microsoft Office
