EDUCATION

Dartmouth College – GPA 3.9

Major: Bachelor of Arts, Computer Science

Minor: Hispanic Studies

Hanover, New Hampshire

September 2020 – June 2024

Honors/Awards: Magna Cum Laude, College Honor List (2020-2024), QuestBridge National Scholar

Relevant Coursework: Multivariable Calculus, Object Oriented Programming, Software Design and Implementation, Database Systems, Machine Learning and Statistical Analysis, Computer Graphics, Computational Photography, Full Stack Web Development

EXPERIENCE

Lennar

Miami, Florida

Full Stack Software Developer

July 2024 – Present

- Optimized and developed a custom search API for querying a Material UI Data Grid with thousands of rows, achieving a 15% reduction in load time compared to the built-in functionality.
- Revamped and optimized a microservice responsible for parsing user-uploaded Excel sheets, automating the upload of upwards of 1000 data points to an Azure database simultaneously, improving efficiency and scalability.
- Conducted in-depth research and implemented over 10 performance enhancements to the Material UI Data Grid, significantly reducing latency and minimizing resource strain on users' machines.

Amazon

Boston, Massachusetts

Software Development Engineer Intern

June 2023 – September 2023

- Designed and implemented an automated Alexa integration test suite using the Internal Alexa Test SDK to emulate a wide range of Alexa requests, covering diverse Voice User Interface (VUI) utterances and scenarios.
- Created test cases for Alexa integration, validating VUI interactions and improving the reliability of Alexa-enabled devices.
- Integrated the test suite into the pipeline with Hydra Test, automating the CI/CD process for stable software releases.

Mavis Tires & Brakes

Millwood, New York

UI/UX Design Intern

January 2023 – March 2023

- Redesigned 10+ internal admin tools, employing principles of human-centered design to enhance usability and accessibility.
- Conducted Figma training sessions for 10+ team members, improving their design collaboration and proficiency.
- Designed multiple website pages adhering to new brand guidelines, with several pages successfully launched into production.

Dartmouth College, First Generation Office

Hanover, New Hampshire

Strategic Planning Student Director

September 2021 – June 2024

- Collected and maintained financial and academic resources for over 300 first-generation students.
- Planned and organized student workshops and tutoring services for upwards of 100 students.

Dartmouth College, Department of Computer Science

Hanover, New Hampshire

Teaching Assistant, COSC 21: Foundations of Digital Design

June 2021 – August 2021

- Guided over 25 students through Adobe Photoshop during class and weekly office hours.
- Graded student projects based on a set of technical and aesthetic criteria.

PROJECTS

Tiny Search Engine | [Github](#)

- Developed a web crawling program to retrieve and store webpages recursively from a seed URL, an indexing system to manage web document indices, and a querying module to handle search queries.
- Coded primarily in C and Bash, employed Valgrind for memory leak detection, and GDB for debugging.

Part-of-Speech Tagger | [Github](#)

- Designed a program utilizing a hidden Markov model and the Viterbi algorithm to accurately assign parts of speech to words.
- Achieved with dictionaries and binary trees, and trained the algorithm using extensive data sets of up to one million words.

OTHER SKILLS & INTERESTS

Technical: TypeScript, JavaScript, React, React Native, Redux, RESTful APIs, Nest, Node, Jest, Azure, Git, Jira, Agile, CSS, HTML, Python, Java, Kotlin, C, Photoshop, Illustrator, Lightroom, Figma, Autodesk Maya, SQL, MongoDB, Microsoft Office

Languages: English (native), Spanish (native)
